## Gantry Tooling Production Line

- National invention patent tooling
- Up and down head positioning
- Up and down large brackets installation positioning
- Glass stiffener installation positioning
- Center guide installation positioning

## Factory

## Controller Center

### Elevator controller

Suspended tooling, with tools mounted in order. The workshop has wide vision and has automatic simulation test and 100% full function inspection.

### Escalator controller

Unit operation in pre-material configuration mode. The workshop has automatic simulation test and 100% full function inspection.

### Human interface

The workshop uses the ball flow line, the front working platform and the rear material storage, which reduces the material handling time and has automatic simulation test as well as 100% full function inspection.

Factory

## Motor Manufacturing Center

World's largest gearless traction machine production base

The global market share: 20%

On average, 1 in every 5 elevators is used

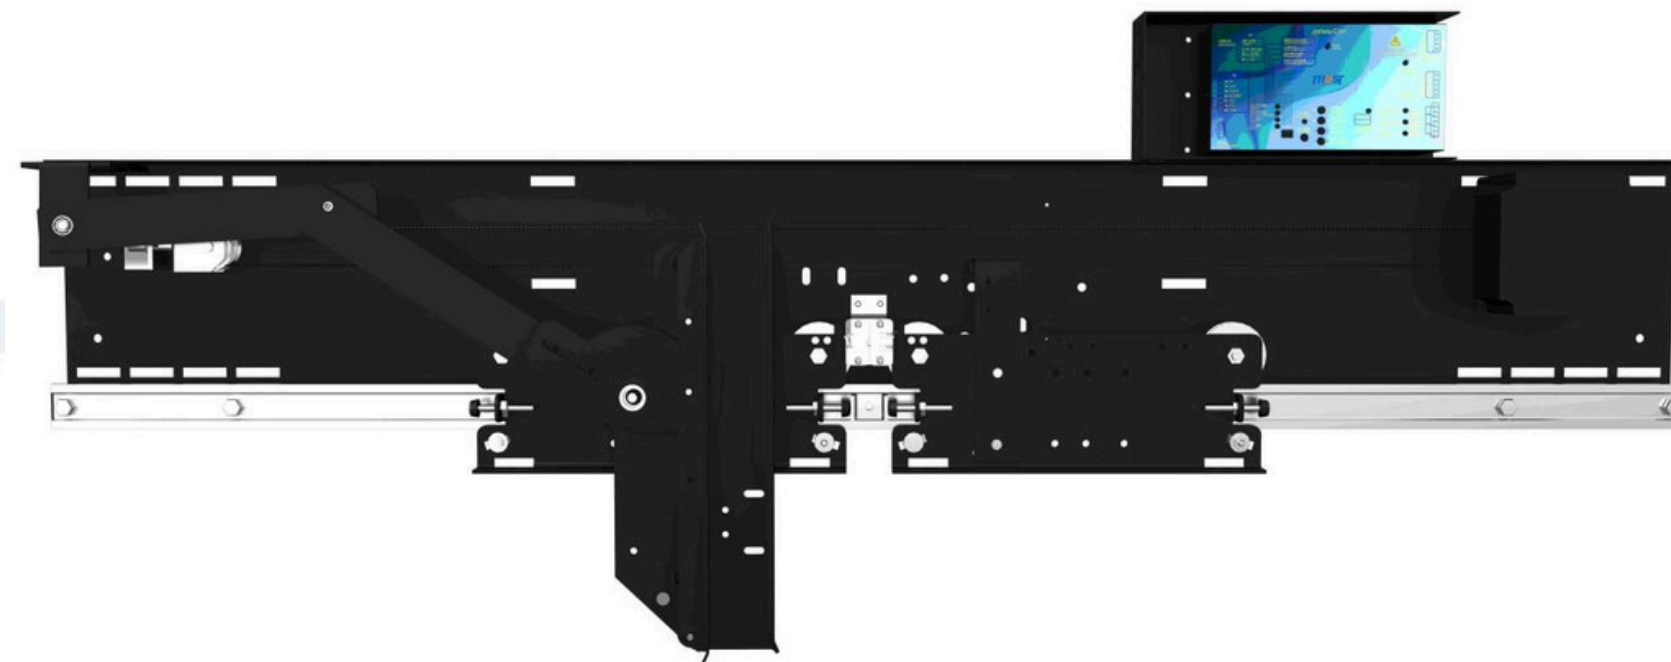

Factory

## Door Operator Manufacturing Center

- National laboratory
- The most professional door system solution manufacturer in China
